

Lacquered Rivets Specialists

From our headquarters in Spain we are **specialists in the manufacture of lacquered rivets in drum and by hand** providing an unmatched quality for our products that require a perfect aesthetic finish.

This allows us to provide a faster and more competitive service, controlling 100% of the process.

Lacquering provides a series of advantages, such as resistance to corrosion or a better aesthetic finish.

Hand lacquering

Drum lacquering

Available in all colors of the **RAL chart**.

*Please consult minimum quantity to be lacquered for each diameter.

We can also lacquer according to physical sample delivered by the customer.
