INSIGHT Visibility

Software to ensure your shop floor is production ready! Monitor, manage & track ProGlove device fleets across warehouses & distribution centers, with easy-to-act on insights.

Device Monitoring

Ensure your device fleet is ready at the start of every shift! Monitor device usage and track battery charging patterns with a 360° view into ProGlove assets across sites. Get actionable insights across sites & avoid problems before they arise.

Manage with Remote Updates

A faster, more efficient way to configure and apply updates to ProGlove scanners, Gateways and Mobile devices. Access new features and ensure the latest bug fixes always apply using Remote Updates.

Lost & Found

Keep track of devices & avoid costly scanner replacements! Lost & Found ensures shop floor devices stay in operation by combining scanner feedback with asset-tracking technology and the intelligence of INSIGHT software.

INSIGHT Standard

- Configure Scanners, Gateways, Mobile applications
- Deploy with the latest downloads
- Included with every ProGlove wearable scanner

INSIGHT Visibility

- **Monitor device** usage & battery status
- **Update device** fleet configurations & software versions
- **Track** lost devices & avoid costly scanner replacements

INSIGHT Productivity

- Advanced Scanning for multiple barcode scanning
- Multiscan mode for 5x more preselected barcodes
- Continuous Scanning mode for any 10 barcodes

INSIGHT Analytics

- Discover errors by converting raw data into action
- Analyze with automated reports
- Act & enhance shop floor integrations with more process context
