WATER-BASED ADHESIVES

ALFAST®

ALFAST® dispersion adhesives offer a wide range of products with excellent specifications. They successfully meet the requirements of various industries while being cost-effective and environmentally friendly. ALFAST® combines the highest standards with sustainability and cutting-edge adhesive technology.

ECO-FRIENDLY, VERSATILE, POWERFUL

VORTEILE

- Solvent-free
- Easy handling
- Cost-efficient
- Optimized cohesion and adhesion
- Wide viscosity range

- ✓ PERMANENT
- ✓ PRESSURE-SENSITIVE ADHESIVE
- ✓ SEALABLE
- ✓ REMOVABLE
- ✓ ANTI-SLIP

HOTMELT ADHESIVES

ALFAMELT®

ALFAMELT® hot melts guarantee fast and efficient bonding. They also offer high productivity and excellent value for money. ALFAMELT® hotmelt adhesives offer a wide range of application options and consistently deliver first class results.

HOTMELT-TYPES

various
sizes

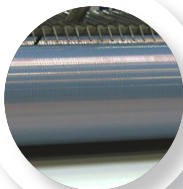

VORTEILE

- Fast turnaround times
- High cost efficiency
- Strong adhesion
- Long shelf life
- Wide range of applications

- ✓ **PO** (Polyolefin)
- ✓ **EVA** (Ethylene-vinyl acetate)
- ✓ **PSA** (Pressure-sensitive adhesive)
- ✓ **Bio-based** (Renewable resource)
- ✓ **Low-Melt** (Energy-saving)

APPLICATION METHODS

**PRECISION AND EFFICIENCY
THAT REDEFINE STANDARDS**

ROLLER

fully or partially applied

WHEEL

continuous and reliable

NOZZLE

**dot, bead, surface, or
spray application**

ALFAPURA®

CONSISTENT CIRCULAR ECONOMY

ALFAPURA®

ALFAPURA® C2C Certified
Material Health Certificate™ Gold

The Cradle to Cradle Certified® Gold certification of ALFAPURA® adhesives confirms their contribution to environmentally friendly production.

All ingredients and the entire production process are rigorously tested for environmental and health compatibility and are free of harmful chemicals.

The Gold certification ensures that ALFAPURA® adhesives are a future-proof solution for sustainable manufacturing processes. Ideal for companies striving for resource-efficient, Cradle to Cradle-compliant production.
